

ETP-LSM - Line Seizure Module

Description

The **ETP-LSM** allows a Talk-A-Phone Emergency Phone to share a single phone line with another standard phone, while always giving priority to emergency calls. When an emergency phone is activated the **ETP-LSM** seizes the phone line, interrupting the non-emergency conversation so the emergency call can proceed.

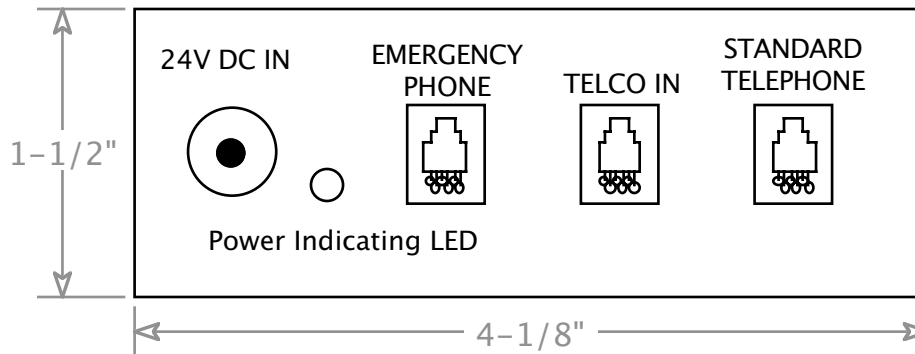

Features

- Retain ability to make and receive calls from standard phone when Emergency Phone is not in use
- Emergency Phone seizes line when button is activated
- In case of power failure, automatically provides phone line to Emergency Phone
- Saves money on monthly line charges by eliminating the need for a dedicated phone line
- Compact Design

Specifications
